Feline Reaction Information: multiple choice

Please note we want to know what your cat does when you routinely interact with it. If you do not know how your cat would react in the following scenarios, please do not attempt to find out, just write NA.

KEY NR = no reaction, S = stare, B = bite, H = hiss, howl, growl, vocalise (not purr), SW = swat/scratch, P = piloerect (fur up)/arch/puff up, TS = swish or twitch tail, WD = withdraw, NA = not applicable.

Please put a Y in any boxes that are applicable. Please DO NOT add your own options									
We will discuss your answers during the assessment
